***Allowable Subject Matter***

1. Claims 35-36 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent No. 4,868,877 to Fischer and U.S. Patent No. 5,771,289 to Kuzma.

Fischer discloses receiving a signed digital message and validating the signed digital message using a public key of a sender.

Kuzma discloses a method and apparatus for transmitting electronic data using attached electronic credits to pay for the transmission.

As per Claims 35-36, in accordance with the decision by the Board of Appeals and Interferences, the closest prior art of record taken either individually or in combination with other prior art of record fails to teach or suggest validating a signed digital message that includes providing a register having funds stored therein, and after receiving a signed digital message, determining if sufficient funds are available in the register for validating the message and deducting funds from the register for validating the message.

The reference to Asay (5,903,882) cited by the examiner in the office action mailed 01 November 2004 is not prior art since applicant has properly claimed priority dating back to 21 August 1995.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
